

# CTC-7

Cryo.Thermo.Compression system

## Purpose of CTC-7

To accelerate patient's recovery and shorten hospital stay

# CTC-7

Continuous Thermo Compression System

## | Main features

- + Cold + Heat + Contrast therapy
- + It can be drained automatically, so much easier to use
- + Easy maintenance with digital temperature control
- + It has no ice or hot substances, only needs water
- + Definite care for selectable body parts wraps

CTC-7 wraps simultaneously deliver heat or cold water and active air-compression to help prevent and treat your body injuries. Active air compression helps to reduce the swelling and stimulate the flow of rich oxygen blood. Cooling and heating further reduces swelling, muscle spasm and pain.

## | Benefits of CTC-7

**COLD +  
Compression**

**HOT +  
Compression**

**CONTRAST+  
Compression**

**STEAM  
Cleaning**

**AUTO  
Drain**

**AUTO  
Water Check**
